This Second-hand Hyundai Excavator is a great option for those looking for a reliable and efficient machine. With an Original Hydraulic Valve Brand and in Good Health Condition, this Used Hyundai Digger is perfect for any job. The Crawler Chain Moving Type ensures stability and durability in any terrain. Powered by a Cummins Engine Brand, this Second-hand Hyundai Digger is sure to meet all your excavation needs.

### Technical Parameters:

Product Name	Original Used crawler Hyundai 220LC-9S Hydraulic Excavator 22 Ton made In Korea
Condition	Good Health
Video Outgoing-inspection	Provided
Working Hours	825
Machine Weight	22000 KG
Product Category	Used Hyundai Excavator
Core Components	Pressure Vessel, Motor, Bearing, Gear, Pump, Gearbox, Engine, PLC
Operating Weight	22570 KG
Power	112 KW
Moving Type	Crawler Chain

### Applications:

With a price of \$25,000.00 for 1-3 units, this excavator is an affordable option for those in need of a powerful machine without breaking the bank. In addition, the working hours on this excavator are only 825, making it a great investment for those who need a reliable machine but don't want to pay full price for a brand new one.

The operating weight of this excavator is 22570 KG, making it perfect for heavy-duty applications such as mining, construction, and demolition. Despite its weight, the machine is easy to operate and maneuver thanks to its hydraulic cylinder brand that is original and its well-maintained condition.

Another great feature of this excavator is its 2021 manufacturing year, ensuring that it is up-to-date with the latest technology and safety standards. The machine weight of 22000 KG is also a testament to its durability and strength, making it a reliable choice for any job site. Some possible application occasions and scenarios for this remanufactured Hyundai Excavator include digging trenches for utilities, grading and leveling land, clearing debris, and excavating foundations for buildings. Its versatility and power make it an ideal choice for any construction or excavation project.

### Support and Services:

Our Product Technical Support and Services for Used Hyundai Excavator include:

Expert technical advice and troubleshooting

Regular maintenance and repair services

Supply of genuine Hyundai parts and accessories

Upgrades and modifications to improve performance and efficiency

Operator training and safety instructions

We are committed to providing our customers with the highest level of support to ensure their Hyundai Excavator operates at peak performance for years to come.

## Packing and Shipping:

### Product Packaging:

The used Hyundai excavator will be securely packaged and placed on a pallet.

The pallet will be wrapped with stretch film to ensure stability during transportation.

All necessary documentation, including the bill of sale and inspection reports, will be included in the package.

### Shipping:

The used Hyundai excavator will be shipped via trucking company.

The shipping cost will be calculated based on the destination and the weight of the package.

The estimated delivery time will be provided to the buyer once the shipping arrangements have been made.
